OVERVIEW

Bring a splash of color and inspiration to your stairways.

INSTRUCTIONS

1. Get permission and plan a time when the steps will be lightly used.
2. Unroll decals and lay flat for at least an hour.
3. Clean the surface with a warm damp cloth and allow to dry completely.
4. Measure and mark the locations of the decals.
5. Peel each decal from backing on one side and place on the surface.
6. Unpeel the liner from the back of the decal and peel it off, using the included squeegee to gently apply pressure.
7. Smooth any wrinkles or bubbles with the squeegee, starting at the middle and working to the edges.

TIPS AND TRICKS

- Decals adhere best to painted drywall, glass, metal, sanded wood and most walls and flat surfaces.
- In addition to stairways, use decals as door and bulletin board borders, or make your own wall design.
